3.76 GPA

SKILLS

// PROFESSIONAL

- Research
- Report Writing
- Leadership
- Self-reliant

PROFILE

My highest priority is to succeed at university as I move towards my goal of achieving a B.S. in Cognitive Science with a specialization in Design and Interaction. Along this path I would also like to gain experience in Cognitive Science related fields through lab research, internships, and programs. I am open, interested, and appreciative of all fields and the knowledge and insight they provide, but my strongest interest lies in gaining more understanding in Computer Science, Engineering, Graphic Design, and Marketing.

PROFESSIONAL EXPERIENCE
